MY DOG HAS BAD BREATH: WHAT DO I DO?

“I came across this antioxidant oral gel product called, *Tooth to Tail*, through my friend, Barb, whose cat had the worst breath. It was formulated by top veterinary and human dentists over the course of three years of scientific research and clinical trials. It is, apparently, the only dog breath freshener on the market that contains clinically proven antioxidant technology. And, it worked for Barb. All that sounded impressive to me, so I wanted to learn more.”
